

**Resolution re: Garbage Cans/Trash
Read and Passed by Copperfield HOA Board of Directors on 7/23/24**

Garbage Cans: After reviewing the language in the Copperfield Covenants and Bylaws and seeking counsel from the HOA's attorney, the Copperfield HOA board of directors does not interpret "trash in yard" as meaning trash (garbage) cans or recycling receptacles must be stored in the resident's garage or out of sight from the street. That said, the board of directors does expect that garbage needs to be contained in an appropriately sized trash can or container, and recyclables need to be contained in a receptacle. Trash cans, bags, containers, receptacles, junk or bulk waste items should be placed at the curb the night before or morning of scheduled pick up.
